Chairman's statement

Boulogne, September 12, 2001

After an exceptional year in 2000, the fiscal year 2001 looks less bright: the growth of the French economy and household consumption have both slowed down, financial markets are declining and advertising investments are decreasing.

In this context, during the first half of 2001, we have been able not only to maintain our position:

- Core channel advertising revenues reached the same level as that achieved in the first half of 2000;
- TF1 recorded 92 out of the 100 best audiences in the period;
- Consolidated operating revenues increased by 7.9%;
- Consolidated net profit amounted to €160.8M;

but also to pursue our development:

- By strengthening our Thematic channels division, particularly with the acquisition of:
 - 100% of Eurosport, the most watched TV channel across Europe and one where more than 60% of total revenue is represented by subscription fees;
 - a 50% stake in Série Club, a channel that, along with TF6 launched in December 2000, expands our offer dedicated to young adults;
- By reinforcing our involvement in the production of content with the acquisition of Téléma, which has launched a major film production programme, and by co-producing, through TF1 Films Production, the French movies that recorded the highest box offices entries during 2001 first half;
- By developing new expertise in markets with high potential: "Call TV", parlour games (*Who wants to be a millionaire?*, *Tir et But*, *Attakube*, etc.) and the « A la carte » CD service.

Despite these achievements, we expect a decrease in our advertising revenues of between 3 and 5% for the full year 2001 in an uncertain market, which is still declining. Yet one should bear in mind that on this basis our advertising revenues would then have achieved an 11 to 13% increase since January 1, 2000. We are gaining market share from our competitors, showing that we are a dynamic force with highly motivated sales teams.

As to our programming costs, which we have been managing prudently for several years now, we expect them to increase by around 3.5% for the full year 2001. This investment is required to maintain

and increase TF1's leading position, which depends on strong audiences and this means powerful programmes. Determination to assure our future growth leads us to support the development of TPS and thus to maintain our commitment to new technologies. This commitment impacts our margins and will result in an 8 to 10% reduction in our full year net profit. This still represents a 40% increase over our 1999 performance.

Looking beyond this cyclical downturn, we are very optimistic, confident that the future belongs to free to air channels. In this area, TF1 holds a number of trump cards:

- Our leading position in terms both of audience and advertising remains unchallenged. This has been confirmed by the latest Médiacabsat survey, which underlines the supremacy of terrestrial free to air channels (68.8% audience share) and especially of TF1, which remains the most watched TV channel - more than 10 points ahead of its nearest competitors on most of the advertising targets;
- Our thematic channels (particularly LCI, Eurosport, TF6 and Série Club) perform very highly in this Médiacabsat survey and demonstrate the wisdom of our strategy of creating and/or investing in channels with high added value content;
- Our development efforts in content production (including movies, games, live shows, TV dramas and documentaries) are starting to bear fruit and will be vigorously pursued in the coming years;
- Full control of Eurosport provides an exceptional opportunity for the development of our European activities;
- Finally, we enjoy an enviable financial situation with a healthy balance sheet, a low level of indebtedness, substantial shareholders' funds and a high return on equity. This has just been confirmed by the excellent A / A-1 rating from Standard & Poor's.

However, we remain vigilant and are stepping up our cost control policy. We are adapting our organisational structure to meet the new economic environment so as to improve our profitability, guaranteeing financial independence and sustainable growth.

In this way, supported by the skills and experience of our staff and by your confidence in us, we know that at the end of the day, when present difficulties are overcome, TF1 will emerge stronger and will continue to create and develop the business assets which will secure the profits of the future.

Review of operations

Boulogne, September 12, 2001

As of June 30, 2001 TF1 Group reported operating revenue of €1,236.7 M, an increase of 7.9% on the first half of 2000.

Two main factors explain this progress: TF1 core channel advertising revenue was stable at €833.7 M (+0.2%), and revenue from diversified activities grew by 28.5% to €403.0 M.

The stability of TF1 core channel's advertising revenue has occurred in an economic environment that is less favourable than in the first half of 2000, characterised by a downward adjustment in the forecast growth of French GDP for the year 2001 (+2.3% according to INSEE for 2001) and by an overall reduction of 0.8% in all media advertising investment, and of 3.9% in TV advertising in the first half of 2001 (both figures according to Sécodip).

In the first half of 2001, operating revenue from diversification accounted for 32.6% of consolidated operating revenue (compared with 27.4% in the first half of 2000), chiefly as a result of the 100% takeover of Eurosport during the period. On a comparable basis⁽¹⁾, operating revenue from "diversified activities and other items" would have grown by 9.0%.

Programming costs grew by 5.1% in the first half of 2001 and are expected to lie between 3% and 4% for the whole of the year 2001. Operating income totals €266.3 M, showing an operating margin of 21.5% relative to operating revenue.

The 100% acquisition of Eurosport, and the acquisition of a 50% stake in Série Club, combined with the dividend payout on May 31, 2001, had a significant impact on the Group's cash situation. On June 30, 2001, the Group's net consolidated cash and liquidity amounted to €(125.1) M. These developments and capital losses and provisions on securities have contributed to TF1's financial result of €(6.8) M.

Taken as a whole, these items, combined with the 27.6% reduction of losses incurred by TPS, have enabled the Group to consolidate a net half-year result of €160.8 M. The net margin reported by TF1 Group amounts to 13.0% of operating revenue.

Finally, the financial structure of TF1 Group was strengthened during the first half of 2001:

- The Group's shareholders' equity amounted to €709.2 M (compared with €684.9 M on December 31, 2000).
- Subsequent to the financing of the acquisition of Eurosport, the acquisition of a 50% interest in Série Club, and the payment of dividends, loans and financial debts were contained at €204.6 M (compared with €9.7 M on December 31, 2000).

A. BROADCASTING

In the first half of 2001, daily viewing time⁽²⁾ reached a new high: 201 minutes per day for individuals aged 4 and above, a growth of 6 minutes per day. This upward trend was confirmed by an increase of 11 minutes per day to 209 minutes for women under 50.

With 32.8% of individuals aged 4 and above and 35.1% of women under 50 in the first half of 2001, TF1 registered a fall of 0.9% of audience share on both target audiences, but maintained its overall average of 66 minutes of viewing per day per capita in France, the same figure as in the first half of 2000. TF1 is also gaining appeal for women under 50, with an average daily viewing time of 73 minutes in the first half of 2001 (up by 2 minutes on the first half of 2000). In the first half of 2001, TF1 scored 48 of the 50 highest rated programmes (47 in the first half of 2000).

(1) i.e. had Eurosport International and TV Sport been wholly consolidated in the first half of 2000, under the same accounting principles as for 2001.

(2) Source Médiamétrie. Average as of June 30, 2001.

B. ADVERTISING

Net advertising revenue generated by the TF1 core channel rose by 0.2% in the first half of 2001 (compared with 18.4% for the first half of 2000). The reasons for this stabilisation at the level reached in 2000 lie in the contrasting patterns in the television advertising market⁽³⁾ :

- A slowdown in advertising investment in certain sectors, particularly Telecommunications and Food which have cut back by 42% and 5% respectively on TF1.
- A growth in the Services sectors (banking, insurance, etc.) and the Music Publishing industry, supported by growth in more traditional sectors such as House Cleaning (+9%) and Toiletries/Cosmetics (+4%).

C. TF1 GROUP

N.B.: the activity of TF1's subsidiaries is analysed below on the basis of each subsidiary's individual turnover and net income and not in terms of contribution to the Group's consolidated statements.

I) Publishing and distribution

■ TF1 ENTREPRISES

TF1 Entreprises reported turnover of €17.3 M compared with €10.4 M for the first half of 2000, an increase of 66.3%. This growth was linked to the performance of all segments of TF1 Entreprises' activity: merchandising rights have, for the second year running, benefited from "Pokémon™" sales, while the telematics activity has been boosted by the popularity of the *Who wants to be a millionaire?* game show.

A new games activity "TF1 Games" has been created. Operating results were up by 32.4% at €4.5 M. The net result is stable at €11.2 M compared with the first half of 2000.

■ TF1 VIDÉO

TF1 Vidéo revenue in the first half was down by 14.4% to €63.5 M compared with the first half of 2000. Global volume sales totalled 4.5 M units (cassettes, DVD, CD-Rom), compared with 6.6 M in the first half of 2000, down by 32% (the performance in 2000 had been boosted by the "Pokémon™" effect).

TF1 Vidéo strengthened its position in digital technologies, with revenue from the DVD media accounting for 43% of TF1 Vidéo activity (not including "Kiosque").

TF1 Vidéo recorded a net half-yearly result of €4.2 M, yielding a 6.6% net margin, an increase of 0.3 point.

■ UNE MUSIQUE

Une Musique recorded revenue of €4.3 M for a net result of €(0.7) M. In the second half of 2001, a new on-line music publishing activity will be launched. The "A la carte" CD service on the Internet will enable buyers to select the pieces they want to put on their CD, make up their own compilations, customise the artwork on the album and have the CD delivered to their home address.

■ TÉLÉSHOPPING

In a softening mail-order market (-0.9%, source FEVAD), Téléshopping recorded revenue of €41.7 M, up by 3.0% and a net result of €1.9 M. Growth is continuing on the two most bullish segments of the company's activity.

The first of these is the Internet, with a twofold increase in revenue on the www.teleshopping.fr site, and the second being the catalogue.

II) Thematic channels

Testifying to the vitality of the TF1 Group, the thematic channels' activity was expanded in 2001 with the acquisition of a 100% interest in Eurosport Group and a 50% interest in Série Club.

■ EUROSPORT

At the end of January 2001, TF1 finalised its purchase of 100% of the shares of Eurosport Group from its previous owners, Canal + and Havas Images. As a result of the deal, TF1 now owns 100% of the capital of Eurosport International and 100% of the capital of Eurosport France, thus becoming one of the leading players on the European sport market.

Eurosport revenue for the first half of 2001 reached €145.7 M, up by 10.6%. Trends have been contrasting: revenue from cable and satellite fees have been up significantly by 28% while advertising revenue from the Eurosport Group slipped by 19% in a difficult period for advertising, due notably to the lack of major sporting events. Eurosport has recorded a pre-tax result of €7.6 M.

In the first half of 2001, Eurosport broadcast the top sports events: the Australian and French Open Tennis Championships, grand prix motor cycling, the Tour de France and Spanish Vuelta cycle races, and the World Athletics Championships.

At the end of June 2001, Eurosport was received by 92 million European households in 54 countries (up from 90 million in 47 countries at the end of June 2000). Eurosport also improved its share of paying subscribers: nearly 46% on June 30, 2001.

■ LCI, LA CHAÎNE INFO

At the end of June 2001, LCI, the news channel, was received by million households, representing a yearly growth of 14%. LCI's revenue was down by 6.6% to €22.8 M and its pre-tax result was €(2.4) M. This fall is linked to renegotiations with the cable operators in 2000.

■ ODYSSEE

Odyssée recorded revenue of €4.2 M, up by 16.7% on the first half of 2000. Its net result held at €0.3 M.

At the end of June, Odyssée had 1.7 subscribed households, compared with 1.5 million at the end of June 2000. This growth was mainly due to the development of subscriptions on TPS and the cable, and to distribution on new cable networks.

To reinforce its identity and enrich its programming grid, Odyssée will co-produce around 60 hours of documentaries in 2001.

■ SÉRIE CLUB

In the first half of 2001, Série Club returned revenue of €6.5 M, for a net result of €1.3 M.

On June 30, 2001 Série Club had approximately 2 million subscribers, via TPS and the leading cable operators.

■ TF6

In the first half of its birth year TF6 posted revenue of €4.9 M. On June 30, 2001, TF6 had around 1.2 million subscribers.

III) Production and trading of audio visual rights

■ TF1 INTERNATIONAL

Revenue for the first half of 2001 was up by 23.8% on the first half of 2000. TF1 International showed a net result of €(3.9) M compared with €(0.9) M for the first half of 2000.

Films Ariane and Ciby DA recorded respective revenues of €2.4 M and €1.0 M for the first half of 2001.

■ TF1 FILMS PRODUCTION

In the first half of 2001, operating revenue from TF1 Films Production totalled €24.2 M. During this period, TF1 Films Production co-produced and bought broadcasting rights for 13 full-length features for a total of €28.5 M thus complying with the Group's licence requirements. TF1 Films Production co-produced 6 of the 10 French films released in 2001 that recorded more than 1 million box office entries in the first half of 2001, including *La Vérité si je mens 2*, *Le Placard*, *Le Pacte des loups*, and *Les Rivières pourpres*.

■ GLEM

Glem Group recorded operating revenue of €52.6 M for the first half of 2001, doubling its figure for the first half of 2000. This yielded a net attributable profit up by 145% to €2.7 M.

The main source of growth was Glem's Live Entertainment activity, driven by the success of the musical comedy *Roméo et Juliette*.

IV) Miscellaneous

■ STUDIOS 107

Half-yearly turnover recorded by Studios 107 from the supply of technical support for entertainment programmes and executive production services for home shopping and documentaries programmes amounted to €11.7 M, up by 21.9%.

V) Digital distribution

■ SATELLITE PLATFORM - TPS

At the end of August, TPS offer totalled 1,215,000 active subscribers, including 175,000 subscribers to its cable cinema offer. The TPS share of the new subscriber market held at approximately 45%.

In the first half of 2001, TPS recorded revenue of €221.7 M, up by 20.9% and a net result of €(43.1) M, an improvement of 27.6%.

Finally, starting in mid-September, TPS will launch a new channel called TPS Star on channel number 4, to optimise and showcase the TPS premium Cinema and Sports programmes including the French Football Premier League.

② Thomas Hugues et Laurence Ferrari
③ Christophe Dechavanne

VI) Internet activity

As of June 30, e-TF1 recorded revenue of €2.8 M (+87%). Besides advertising and e-commerce revenue, this figure includes the sale of content, and the provision, by e-TF1, of diverse services with the launch of partnership contracts with Bouygues Télécom and Crédit Agricole enacted during the first half of 2001. Pre-tax loss amounted to €(7.4) M.

During the first half, the design and technology has been redefined and content has been completed with new items and interactive services. The www.tf1.fr audience grew from 34.6 million pages viewed in June 2000 to 56.6 million pages viewed in June 2001⁽⁴⁾. This growth has accelerated during the summer: tf1.fr totalled nearly 100 million pages viewed in August.

D. HUMAN RESOURCES

TF1 Group had a workforce of 2,649 on June 30, 2001 compared with 2,380 on June 30, 2000, an increase of 11.3%. Through the employee savings plan, 87% of the workforce – 2,304 employees – holds shares of TF1's capital through the employee saving plan.

■ TF1 SHARES

On June 29, 2001, the TF1 share closed at €34.5, down by 40% since December 29, 2000. This should be compared with the 11.8% fall of the French CAC 40 stock exchange index and an 11.4% fall of the SBF 120 index.

The first half of 2001 was marked by a significant increase in daily trading of TF1 shares (excluding off-market transactions), with an average of nearly 900,000 traded shares for this period. This figure compares with an average of nearly 650,000 shares traded daily in 2000.

The TF1 Group market capitalisation amounted to €7.28 billion on June 29, 2001, for a PER (based on the net result for 2000) of 29.2.

Statutory auditors' report

Limited review on the consolidated interim financial statements

SIX MONTHS ENDED JUNE 30, 2001

In our capacity as Statutory Auditors, and in accordance with Article L 232-7 of the commercial law, we conducted:

- the limited review of the attached consolidated interim financial statements of TF1, for the six months ended June 30, 2001, presented in euro,
- the verification of the information given in the interim management report.

These interim financial statements are the responsibility of, and have been approved by, the Board of Directors. It is our responsibility, on the basis of our review, to present our opinion on these statements.

We conducted our review in accordance with French professional standards, which require us to carry out procedures to obtain reasonable assurance that the financial statements are free from material misstatement. Such procedures principally consist of an analytical review and making enquiries of management and other persons. A review is substantially less in scope than an audit and therefore provides a lower level of assurance than an audit. Accordingly we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements are not presented fairly, in all material respects, in accordance with accounting principles generally accepted in France.

We have checked, in accordance with French professional standards, the information contained in the management report, commenting on the consolidated interim financial statements which we have reviewed.

We have nothing to report with respect to the fairness of such information and its conformity with the financial statements.

Notes to the financial statements

1 GROUP ACCOUNTING POLICIES

The consolidated financial statements of the TF1 Group have been prepared in accordance with Generally Accepted French Accounting Standards, notably the 99/02 rules of the Accounting Regulations Committee, acted by the governmental order dated June 22, 1999, and the recommendations of the National Accounting Council on interim accounts.

The consolidation rules 99/02 of the Accounting Regulations Committee have been applied consistently in these accounts as for the 2000 interim and full year consolidated financial statements.

2 SCOPE OF CONSOLIDATION

The main changes in the scope of consolidation between the first halves of 2000 and 2001 result from:

- the increase to 100% of TF1's stake in Eurosport group, fully consolidated,
- the 50% interest taken in the theme channel Série Club, proportionately consolidated,
- the 50% interest taken in the theme channel TF6, proportionately consolidated.

Change of TF1's stake in Eurosport:

	30.06.2001	30.06.2000	30.06.1999
ESO and other entities	100%	50.50%	34.00%
SAGAS	100%	50.44%	33.92%
TV SPORT	100%	36.00%	31.00%

3 ACCOUNTING COMPARISON

The increase of TF1's stake in Eurosport has had no significant impact on the Group financial statements other than the "Other intangible fixed assets" line, to which is allocated the full evaluation of Eurosport's subscribers portfolio for a total amount of €422.9 M.

This evaluation is based both on discounted future cash flows and on other market value comparisons.

The table below summarises the main variations resulting from the acquisition of 100% of Eurosport:

(in €M)

Fixed assets ⁽¹⁾	336.6
Total assets ⁽¹⁾	426.7
Turnover	79.7
Net profit attributable to the Group	2.6
(1) including goodwill	332.7

4 SUBSEQUENT EVENTS

There are no significant subsequent events.

NB: Share capital is divided into 211,183,160 ordinary shares with a nominal value of €0.2 per share.

6 MINORITY INTEREST

Minority interest includes GIE Aphélie's negative net equity for €2.0 M. As the net equity of this entity is to become positive, no provision has been made to cover this amount.

7 FINANCIAL CREDITORS AND BORROWINGS

This line is mainly impacted by the €131.0 M amount borrowed by TF1 SA to partially finance the increase of its interest in Eurosport and to a smaller extent by GIE Aphélie's €45.9 M borrowing to replace the cash advances that TF1 SA used to provide.

8 BREAKDOWN BY BUSINESS SECTOR FIRST HALF 2001
